

## §17.39.130. Screening of Service Areas

### A. Waste Disposal Receptacles

1. Waste disposal receptacles located in the Multi-Family and Economic Development zones shall be completely screened from view on all sides by a fence or wall with a minimum height of six feet or one foot taller than the receptacle, whichever is greater.

2. The enclosure shall be compatible in material and color with the primary structure on the lot if located within 20 feet of the building, if located beyond 20 feet from any structure the enclosure should be designed to minimize the visual impact and blend in with surrounding landscaping.

3. Waste disposal receptacles shall be consolidated to reasonably minimize the number of collection sites and to equalize the distance from the buildings they serve.

a. Waste disposal receptacles shall be located out of the public view insofar as is practical.

b. Waste disposal receptacles shall be located to avoid causing excessive nuisance or offense to other buildings or adjoining properties.
