

15-10-06 Signs Allowed Without a Permit

The following sign types are allowed without a permit in Sandy City. The applicable standards for the use of such signs are as follows.

R. Window Signs. In order to maintain natural surveillance into and out of businesses, window signs which are painted on or temporarily affixed to the window surface shall not be so affixed as to block clear view of exits or entrances or to create a safety hazard.

The following shall apply:

1. They shall not cover more than 25% of any single window, nor 25% of the entire surface area of a group of windows (**See Figure 13**),
2. They shall be no more than 10 feet above adjacent grade, and
3. They shall not exceed 64 cumulative square feet. Signs (e.g., neon, etc.) which are within 18 inches of the interior window surface shall be included in this calculation.
