

11-6-127 Underground Drains

No building permit shall be issued, nor shall any site plan or subdivision be approved, for any property which is crossed over or impacts any part of an underground drain, unless the plans and specifications for the construction to be accomplished thereon provide for the removal and replacement of such underground drain, and the plans and specification for removal and replacement have been approved by the district, company, companies, person or persons owning the easement, recorded or prescriptive, for the underground drain. A waiver of the requirement to remove and replace the underground drain shall meet the requirement of this Section if in writing, and if signed by the district, company, companies, person or persons having authority to waive the requirements to remove and replace the underground drain.
