

Section 16.12.060 Requirements for change from private to County road for subdivision development.

The owner(s) of a private road connecting a subdivision proposal to an existing state route, US Highway, city street or County B-road who desire to have said private road become part of the County road system, shall deed the necessary sixty-six foot right-of-way to the County from the existing state route, US Highway or County B-road. This is in addition to signing the owner's dedication on the subdivision Mylar. Upon the Road Supervisor finding that the road has been constructed to the current County minimum road specifications, and deeded to the County, as ascertained by the County Attorney, then by both the Planning Commission and the County Commissioners approving the subdivision, the road becomes a County B-road.
