

## 2. **Waste Recycling Facilities**

In addition to complying with the general requirements of 3.2.4L.1, waste recycling uses and/or facilities accepting waste from off the permitted site, including any part of the waste stream entering a recycling facility and subsequently returned to a waste stream or otherwise disposed of, shall comply with the following standards:

- a. If a waste container or portion of a facility permitted hereunder, as defined in this LUC, holding waste at a recycling facility is reasonably likely to leak or spill, based on applicable industry standards and/or applicable federal or state law, or begins to leak or spill, the owner/operator must immediately transfer the waste from that container or facility to a container or facility that is in good condition or the permittee shall manage the waste as a waste spill.
- b. Any recycling facility storing materials outdoors for the purpose of recycling shall: be considered to be disposing of waste; secure a waste facility permit from the State of Utah; and, be subject to all requirements of 3.2.4L.5, below.
- c. **Exception**  
The provisions of this subsection do not apply to household waste or to individual recycling containers used for collecting such materials.
