

**19.44.060 Front yard.**

In the R-M zone, the minimum depth of the front yard for main buildings, and for private garages which have a minimum side yard of eight feet, shall be twenty-five feet or the average of the existing buildings where fifty percent or more of the frontage is developed, but in no case less than fifteen feet. Other private garages and all accessory buildings, other than private garages, shall be located at least six feet in the rear of the main building. (Prior code § 22-22-7)
