

Chapter 19.70 AOZ AIRPORT OVERLAY ZONE

19.70.160 Conical zone--Established.

Conical zones are hereby established as the area that commences at the periphery of the horizontal zone and extends outward therefrom a horizontal distance of four thousand feet. The conical zone does not include the precision instrument approach zones and the transitional zones. (§ 1 (part) of Ord. passed 8/22/84: prior code § 22-30A-9)
