

10-4-10: TRANSPORTATION INFRASTRUCTURE AND ACCESS DESIGN:

N. Pedestrian Nonmotorized Trail Systems:

1. Pedestrian walkways or nonmotorized trails necessary as recommended by the Snyderville Basin special recreation district.

2. Developments shall provide portions of the community

wide trails system running through their site. Trail construction shall be consistent with the design guidelines of the Snyderville Basin recreation district and the general plan trails master plan and communitywide trail system development standards.

3. Developments shall connect an internal trail system to communitywide trail system where possible. Walkways and/or sidewalks necessary for adequate internal pedestrian circulation within a development shall not be counted as internal trail system of a development, where connected to major trails. The space dedicated in trails shall be included in the calculation of the open space provided, even though the trail surfaces are impervious. (Ord. 323, 3-9-1998)
