

3-15: OFF-STREET LOADING SPACE REQUIRED

For every building having a gross floor area of five thousand (5,000) square feet or more which goods, materials, merchandise, or supplies are received or distributed by vehicle, there shall be provided at least one (1) off-street loading space. One (1) additional loading space shall also be provided for each additional twenty thousand (20,000) square feet of gross floor area of such building or for each vehicle which must be loaded or unloaded at the same time, whichever requirement is greater. Each required off-street loading space shall be not less than ten (10) feet in width, twenty-five (25) feet in length, and fourteen (14) feet in height.
