

11-4-1 Airports

(a) Definitions

Airport: A tract of land or water that is maintained for the landing and takeoff of aircraft and for the receiving and discharging passengers and cargo and that usually has facilities for the shelter, supply and repair of planes.

Airport Approach Zone: An area at each end of an airport land strip or take-off strip, broadening from a width of one thousand (1,000) feet at the end of the strip to a width of four thousand (4,000) feet at a distance of seven thousand five hundred (7,500) feet from the end of such strip, its center line being a continuation of the center line of the strip.

Airport Transition Zone - A triangular area adjacent to each side of an airport approach zone located with reference thereto as follows: One corner of said transition zone shall be identical with the corner of the approach zone nearest to the landing strip; a second corner shall be located at the end of a line, said line extending from the end of the landing strip to a point one thousand five hundred fifty (1,550) feet from the center line of said landing strip and at right angles thereto; a third corner shall be located at a point along said approach zone boundary line, which point is seven thousand five hundred (7,500) feet distance from the first corner above mentioned.

Airport Turning Zone: A circular area surrounding an airport encompassing all of the land lying within a radius of two (2) miles distance from the landing strip of an airport, except that area covered by the airport, the transition zones and the approach zones. (Res. 11-12-79)

(b) Required Information:

In addition to the information required herein for all Permit Applications, the Applicant shall submit information necessary to demonstrating compliance with the following conditions:

- (1) In any airport approach zone, no building or structure shall be erected which is more than one (1) foot in height for each fifty (50) feet said building or structure is distant from the end of the landing or take-off strip.
- (2) In any airport transition zone, no building or structure shall be erected which is more than one (1) foot in height for each seven (7) feet said building or structure is distant from the inside airport approach zone boundary.
- (3) In any airport turning zone, no building or structure shall be erected to a height greater than one hundred fifty (150) feet.

(c) Required Findings:

Compliance with all above listed conditions, all other requirements specified in this Ordinance and any other conditions placed on the applicant by the approving agency.

(d) Duration:

For so long as the applicant remains in compliance with the aforesaid conditions and requirements.
