Note: Zoning as displayed represents general county planned land uses, not necessarily actual zoning districts. Several zoning districts may be summarized into one category such as 'R-1,' 'R-2,' etc. being mapped as 'Residential' to simplify maps of counties with multiple land use categories. Percentage is of total county area.

Note: Streams and Rivers represent perennial water courses and do not include intermittent or dry streams, washes, ditches, canals, drains, aqueducts, or tunnels.

The County is quick to note that the groundwater in the County is not usable due to salinity. The County's residential and industrial water supply depends entirely on surface sources.
